### CHOOSING THE RIGHT CURTAINS FOR YOU

Not only do curtains finish off the look of a room and add a touch of style they are functional too.

During the summer months it can be hard to sleep with the light outside, if you have this problem then fully lined or blackout curtains are what you need. If your curtains are only to finish off the look of your window or add a splash of colour to your room, then a lighter curtain or voile could be the answer.
